

QMS Training & Special Services

Overview

The “QMS Training & Special Services Practice” is uniquely positioned to provide short term consulting services such as Road Mapping, Quality Assurance Checks, Project Backfill and Short Term Project Assignments. We offer several training options in order to give our customers greater flexibility. These options include the following: Training Videos, Training Bundles, and Formal Training either at the QMS Training Center or onsite the Customer’s own location. These services are led by Platinum level consultants who oversee all training sessions.
